

## Cumulative Summary of *Nu Rho Psi* Chapter Activity Grants

### 2015-2016

- **Northeastern University** [ $\beta$  in MA; faculty advisor: Dr. Jade Zee] to purchase equipment and supplies in support of their “neuroscience of addiction” community outreach program for Boston’s inner-city youth, who are at a higher than average risk of developing a substance use disorder.
- **Oberlin College** [ $\delta$  in OH; faculty advisor: Dr. Jan Thornton] to support an undergraduate course titled: “The and Neurobiology of Addiction” and the *Nu Rho Psi* students in that course who will collectively design and produce a workshop that will teach students at the Langston Middle School about brain development and drugs of abuse.
- **St. Mary’s College of Maryland** [ $\beta$  in MD; faculty advisor: Dr. Aileen Bailey] to produce videos that will be used in a peer-to-peer mentoring program designed to teach high school students as well as teen offenders from the local “Teen Drug Court” about drug-induced brain changes and how those brain changes set up adolescents for drug craving, addiction and relapse.

### 2016-2017

- **Trinity College** [ $\alpha$  in CT; Erin Aisenberg/Dr. Sarah Raskin – faculty advisor] to provide partial funding of the Brain Injury Alliance of Connecticut social.
- **Weber State University** [ $\alpha$  in UT; Zoe Miller/ Dr. Lauren Fowler – faculty advisor] to buy educational materials in support of a Traumatic Brain Injury (TBI) emphasis during the 2016 Brain Awareness Week.
- **Georgia State University** [ $\beta$  in GA; Nick Bello/Dr. Michael Black – faculty advisor] to provide support for the first *Nu Rho Psi* Atlanta Neuroscience Symposium.
- **Northeastern University** [ $\beta$  in MA; Margee Kyada/Dr. Jade Zee – faculty advisor] to purchase a Spiker box and dissection kit in support of Brain Awareness Week TBI educational outreach.

### 2017-2018

- **Georgia State University** [ $\beta$  in GA; Stephanie Ross/Dr. Michael Black - advisor]. To fund the second annual Atlanta *Nu Rho Psi* research conference (benefits other chapters including Emory University, and Agnes Scott College)
- **Trinity College** [ $\alpha$  in CT; Thomas Hum-Hyder/Dr. Sarah Raskin – advisor]. To fund "Building on the Spectrum" - Lego volunteer event to benefit Autism Families CONNECTicut
- **University of Arizona** [ $\alpha$  in AZ; Alison Comrie/Dr. Leslie Tolbert - advisor]. To fund "Rockin' for Rett" 5K Family Fun Run and information booth.
- **University of Tennessee, Knoxville** [ $\beta$  in TN; Emalie McMahon/Dr. Jim Hall - advisors]. To fund a 5K run and speaker. Family Event during Autism Awareness Month.

## 2018-2019

- **Baldwin Wallace University** [ $\alpha$  in OH, Jacqueline Morris- advisor] Funding to increase the number and sophistication of demos used as outreach tools in their Brain Fairs. Specifically, activities that communicate microglia's function as resident nervous system macrophages will be developed.
- **Rutgers University** [ $\beta$  in NJ, Kasia Bieszczad- advisor] Funding to support a new podcast series call 'Brainstorm' to be broadcast on campus and in their local community via their campus radio station. Podcasts topics include "Fear, Memory and Music" as well as "A lesson from glial cells in team-work".
- **Transylvania University** [ $\gamma$  in KY, Margaret Upchurch- advisor] Funding to create an informational poster campaign using the motto "What if half of your brain was missing?" to educate the public about the importance of glial cells. A glial cell informational event with guest speaker is also planned to raise funds for the National Multiple Sclerosis Society.
- **Trinity College** [ $\alpha$  in CT, Sarah Raskin- advisor]. Funding for a speaker series that highlights glial research and to begin a student-patient service project to enable MS patients to receive music or pet therapy.

## 2019-2020

- **Boston College** [ $\epsilon$  in MA, Michael McDonald- advisor] Boston College speakers with the topic of brain/machine interface, Undergraduate/graduate research presentation event in partnership with Friendship Works a local elder isolation group
- **Rutgers University** [ $\beta$  in NJ, Mimi Phan- advisor] Funding to support an undergraduate research symposium during brain awareness week as well as a mini-symposium that will include other local Nu Rho Psi chapters.
- **Skidmore College** [ $\beta$  in NY, Christopher Vecsey- advisor] Funding to Bring in an external speaker, Julie Pilitsi, M.D, Ph.D. - Department of Neurosurgery, Albany Medical College, to talk about Parkinson's & Deep Brain Stimulation.

## 2020-2021

- **Georgia State University** [ $\beta$  in GA, Michael Black- advisor] The GSU Nu Rho Psi Chapter's request would support their recurring annual event: *The Atlanta Neuroscience Symposium* as a virtual event. The virtual week-long conference was a collaboration with other Atlanta area Nu Rho Psi Chapters (Emory University and Agnes Scott). The 2020-21 event would showcase research in the Atlanta area on a range of neuroscience topics, including cognitive, molecular, systems engineering, and neuro-ethics in relation to the annual theme: The Gut-Brain Connection.
- **Lake Forest College** [ $\gamma$  in IL, Jean-Marie Maddux- advisor] The Nu Rho Psi chapter organized a campaign to educate Lake Forest Students and various community groups about the importance of maintaining a healthy gut and how a balanced microbiome can help maintain a healthy mind. Informative campus posters emphasized the importance of a healthy diet and how immunosuppressive disorders such as celiac and Crohn's

adversely affect the brain. A nutritionist would be invited to offer a public lecture regarding the importance of a well-balanced diet, and a series of group discussions were planned with student at a local grade school regarding the importance of diet in maintaining a healthy brain.

- **Loras College** [ $\gamma$  in IA, Sarah Cassella- advisor] Loras College developed and deployed across campus and the neighboring Chicagoland community, information to highlight the importance that sound nutrition and a balanced microbiome have in promoting both a healthy body and mind. In the spring, they planned a Zoom virtual speaker presentation on the importance of good nutrition on brain plasticity or mood/depression. A Zoom presentation on the importance of diet and nutrition at a local grade school that incorporated small group discussions.
- **SUNY – Old Westbury** [ $\epsilon$  in NY, Lorenz Neuwirth- advisor] The award was to provided support to support student awards for their virtual poster presentations by student participants at the 2<sup>nd</sup> Annual Advancing Cross-Disciplinary Outreach in Neuroscience (AXON) virtual conference. The theme of the AXON conference was *The Gut:Brain Connection*. Old Westbury students as well as students from Drew University (Nu Rho Psi  $\alpha$  in NJ) and Rutgers University (Nu Rho Psi  $\beta$  in NJ), were collaborative organizers and participants.

## 2021-2022

- **Christopher Newport University** [ $\beta$  in VA, Darlene Mitrano – advisor] The CNU chapter of Nu Rho Psi hosted a series of neuroscience seminars and activities during March of 2022 (Brain Awareness Month) to bring awareness of the neuroscience research regarding identity and bias in the CNU community. The seminars incorporated both relevant neuroscience research as well as speakers with personal experience with these biases. For example, empirical research such as that by [Mattan et al. \(2018\)](#) were the focus of discussions and students were encouraged to take one or more established implicit association test (e.g., Harvard Implicit Association Test).
- **Georgia State University** [ $\beta$  in GA, Michael Black- advisor] The GSU Chapter requested funds to virtually present their annual Atlanta Neuroscience Symposium, the first of which was held in 2016. The symposium is a collaboration with other organizations in the Metro-Atlanta region on multiple neuroscience-related topics. Included this year's virtual event (Nu Rho Psi Week) were a variety of bi-weekly online virtual sessions lead by renowned researchers in the neuroscience community that will speak on various topics related to the Nu Rho Psi annual theme.
- **SUNY – Old Westbury** [ $\epsilon$  in NY, Lorenz Neuwirth- advisor] The award was to provided support to support student awards for their virtual poster presentations by student participants at the 3<sup>rd</sup> Annual Advancing Cross-Disciplinary Outreach in Neuroscience (AXON) virtual conference. The theme of the 2022 AXON conference was *The Neuroscience of Identity and Bias*. Old Westbury students as well as students members of the Nu Rho Psi chapters at Rutgers University (Nu Rho Psi  $\beta$  in NJ), were collaborative organizers and participants and intended to expand participation in the virtual event to include student members of Nu Rho Psi at a broader range within the

northeast region, including Connecticut College (CT), as well as Susquehanna University, SUNY Binghamton and Union College (NY).

- **Wayne State University** [β in MI, Thomas Fisher -advisor] The Wayne State University Chapter proposed a mental health event, entitled “Calm Your Brain with Nu Rho Psi”. The event consisted of a series of meditation and mindfulness exercises, a movement exercise, and art therapy experiences adapted from the Mindfulness-Based Stress Reduction (MBSR) curriculum. The goals of the various public speaker presentations and experiential programs includes the general promotion of means to promote mental health and help reduce stigma that surrounds mental illness with the Wayne State community. Funding will also be used towards a subscription to a mindfulness meditation app that will be gifted to one of the attendees as the end of the event.
